EDUCATION

Dominican University of California, San Rafael, CA

B.S. Applied Computer Science

HIGHLIGHTS:

- Worked on products used by millions of people. (Nordstrom.com/Nordstromrack.com)
- Participated in small team projects that improved site performance and revenue. (Nordstrom.com/Nordstromrack.com)
- Worked on a live IOS application. (Boonoob)
- Worked on a cross-platform mobile project. (CodeLabs Internship)

TECHNICAL SKILLS:

Swift, Python, Kotlin, Java, JavaScript, Golang, React, APIs, Github/Gitlab

RELEVANT WORK EXPERIENCE:

YurtsOfAmerica (React) March 2023 - Present

- Rebuilt a wordpress site from the ground up using React to give it more performance and features.
- Created a 3d environment that allowed the site to stay competitive in the market.
- Worked directly with the co-founder to quickly iterate over ideas.

Nordstrom (React) May 2021 - November 2022

- Took lead on multiple projects that impacted millions of users on a daily basis.
- Worked effectively in on-call rotations, presented clear ideas and opinions.
- Worked on a complete remodel for one of the most traffic pages.

CodeLabs Summer Internship (Android) April 2020 - October 2020

- Mocked up and developed an app that would allow people to find and rate nearby restaurants.
- Worked with other interns to make sure we could deploy both an android and an IOS application that had a similar layout and UX.
- Created a development cadence to sync out releases.

Teachers Assistant (IOS) January 2020 - August 2020

- Helped students who found themselves stuck on a concept or bug.
- Developed some material for the course, which other students would follow.
- Developed tutorials which are still in use.

Boonoob (IOS) June 2019- December 2019

- Worked on the notifications side of the application, It allowed users to see live updates when a person interacted with their post.
- Worked closely with a large already established codebase.
- Worked closely with a backend engineer to make sure the live updates were incorporated correctly in both the backend and frontend.
